Annual Percentage Rate (APR) for Purchases and Balance Transfers

Variable Rate
5.24% - 18.00%

Variable Rate Information

Annual percentage rate may vary. Your interest rate is determined by your credit history. Visa rate is determined by adding 1.99%, 3.99%, 7%, 9% or 17% to the Effective Prime. If there is no Introductory rate, the periodic rate used to compute the FINANCE CHARGE for purchases is based on an index (the "Index"), which is the Prime Rate as published in the Money Rates section of The Wall Street Journal on the last business day of the month and is subject to change monthly. Rate options have a ceiling of 18%.
